

Tri-County Board
of Recovery and
Mental Health Services

Miami | Darke | Shelby

2018 FY Annual Report to the Community

The three-year Strategic Plan adopted by the Tri-County Board in June 2017 placed a heavy emphasis on developing and strengthening the structure of the behavioral health services system.

Much of the plan focuses on continuing to build the infrastructure of services related to opioids. However, a bigger focus is on infrastructure in general, for both addictions and mental health.

Planning focuses on creating “centralized service facilities.” The first of these, which will serve as a proving ground for co-locating behavioral health, wraparound and other services with a client-experience emphasis, is One Wellness Place in Troy.

One Wellness Place is a public-private partnership to create a new facility on County Road 25-A between Troy and Piqua. It will not only house the administrative offices of the Tri-County

Board, Community Housing, and NAMI, but will also provide office and treatment space for both mental health and addiction counseling in partnership with Recovery and Wellness Centers of Midwest Ohio and Miami County Recovery Council.

Miami County Public Health will also relocate to One Wellness Place, bringing many health-oriented services such as immunizations, well-child and women’s health clinics, and other community-based health programs to the facility.

The Tri-County Board is the lead fiscal partner, having committed \$2 million toward the project in 2013. The Board has also secured State capital funds totaling \$950,000, and more than \$1.2 million in private gifts and pledges.

Planning is under way, and construction is expected to begin in CY2019.

The importance of safe, stable housing to

successful recovery led the Board and its partner agency, Community Housing of Darke, Miami and Shelby Counties, to seek Ohio Recovery Housing certification of men’s and women’s recovery homes located in Sidney and Troy.

The certification provides assurance that the homes are operated safely and accountably. The homes are available to residents of all three counties.

Safe and accountable housing is also the aim of STAR House, the Sheriff’s Transitional and Recovery House currently under construction adjacent to the Shelby County Jail. A partnership of the Board, the Sheriff’s Office, Shelby County Commissioners, and the Ohio Department of Mental Health and Addiction Services, STAR House is expected to open in Spring 2019. It will provide supervised housing and treatment for up to 20 individuals.

Five-Year Trends

Revenues and Expenditures

Revenues by Source in Dollars and as a Percentage of Total

Local dollars raised by the 0.6 mill levy continue to be a critical revenue source. Federal and state funds are essentially flat year-to-year, but come with restrictions on what the dollars can be used for; much of the federal and state revenue in the period are earmarked for opioid treatment programs.

Expenditures by Category in Dollars and as a Percentage of Total

The period saw a significant increase in Board Services to Agencies, largely due to increased programming at recovery homes. Capital expenditures are down somewhat from FY2017 but are expected to rise in FY2019 as construction of One Wellness Place gets under way.
